Material container 10 litres with agitator

Article number

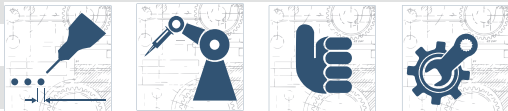

MB3700017

described

material container 10l with electric agitator incl. level pipe and material outlet

- Suitable for fluid group 1 & 2
- Geometric capacity: ~10l, l - Ø: 200 mm, total height: 475 mm
- Reservoir and lid stainless steel, material: V2A
- Max.operating pressure: PS ~7 bar
- Max.operating temperature: TS ~40°C
- Incl. double propeller agitator made of V4A (40 - 2700 rpm: no guarantee for the agitating result!)
- Lid closure fastened with star knobs
- Flat lid equipped with:
 - Pressure reducer and pressure gauge
 - Safety valve
 - 1x refill opening (1" ball valve)
 - 2x G1/4" thread
- 90° material outlet (bottom) for adaptation of an 8/6mm material hose at the side
- Transparent level pipe to visualize the filling level and connection of an optional capacitive empty signal
